School Key Club president, Philip Cusick of Marion. Horne complimented the local Key Club for its initiative and rapid growth, indicating to the new members, particularly, the need to become involved in Key Club activities. "It is important to help build a better school, community, and nation through personal involvement."

Horne indicated that a Key Club doesn't have to do big things. "Small things like Christmas baskets for the needy at the holiday season or helping young boys in games and activities are all important," he said.

Inducted at the meeting were Louis Marcosa, Peter Trow, Steven Cadieux, Stephen Heath, David Roberts, Dennis Desnoyers, Timothy Sullivan, Edward Cabral, Michael Jordan, Eric Dickerson, Dwight Smith, Carl Lonsdale and Thomas DeCosta.

After the turkey dinner and induction, Key Club members and their guests enjoyed dancing by the Mainsprings.

to your door, open your heart and give, for your gift may make the difference between life and death for a child with birth defects.

"The Marching Mothers are grateful that they can help a child, and are grateful if their own children are healthy," Mrs. Sumner M. Brown of Hillside Avenue, Mattapoisett, said upon her appointment as chairman of the 1968 Mothers' March in Mattapoisett.

"I know all the women working with me feel the same way. It's a privilege to serve so worthy a cause. Every year 250,000 babies in the United States are born with defects. Birth defects are the nation's second greatest killer. They destroy an estimated 500,000 lives before birth and kill 60,000 children and adults each year.

"When I read about these figures in the newspapers I decided to offer my services to help. True, my contribution seems small when compared to the over-whelming picture, but every start must begin with the first step. Perhaps yours will be the step that will allow some unfortunate child to walk again."

Much of the money contributed to the March of Dimes goes into a vigorous research program which seeks to shed light on the complex mysteries of birth defects. Another part is earmarked for public education programs. Yet another part goes to support a country-wide network of nearly 100 birth defects centers where youngsters may receive team-coordinated, specialized treatment.

THE COMMONWEALTH OF MASSACHUSETTS

IN THE YEAR ONE THOUSAND NINE HUNDRED AND SIXTY-SEVEN
AN ACT REQUIRING THAT THE EXTERIOR DOORS OTHER THAN THE
MAIN DOORS OF CERTAIN APARTMENT HOUSES BE EQUIPPED WITH
LOCKS.

Be it enacted by the Senate and House of Representatives in
General Court assembled, and by the authority of the same, as
follows:

SECTION 1. Section 3R of chapter 143 of the General Laws,
inserted by section 1 of chapter 464 of the acts of 1965, is here-
by amended by inserting after the first sentence the following
sentence:- Every door of the main common entry way and every
exterior door into every such apartment house, other than the door
of such main common entry way which is equipped as provided
in the preceding sentence, shall be equipped with a lock of a
type approved by said board of standards; provided, however,
that the commissioner may in writing, waive any of the require-
ments of this section in appropriate cases in which, in his
opinion, other security measures are in force which adequately
protect the residents of such apartment house.

FLOATS OR RAFTS - MOORING

CHAPTER 543

An Act relative to the temporary mooring of floats or rafts.
Be it enacted by the Senate and House of Representatives in Gen-
eral Court assembled, and by the authority of the same, as follows:

Chapter 91 of the General Laws is hereby amended by inserting
after section 10 the following section:

Section 10A.

Notwithstanding any contrary provision of law, the harbor-
master of a city or town or whomsoever is so empowered by said
city or town may authorize by permit the mooring on a temporary
basis of floats or rafts held by anchors or bottom moorings with-
in the territorial jurisdiction of such city or town upon such
terms, conditions and restrictions as he shall deem necessary.
He shall act on applications for such permits within a period of
fifteen days from receipt thereof.

Any person aggrieved by a refusal to permit such temporary
mooring, or by any condition or restriction imposed relative to
such mooring, may appeal to the division of waterways of the
department of public works within thirty days after receiving
notice of such refusal or of the imposition of such condition or
restriction.

Said division shall review the circumstances resulting in such
appeal and shall render a ruling either confirming the action of a
harbormaster, setting such action aside, or amending such action
and imposing its own conditions and restrictions as deemed neces-
sary.

Nothing in this section shall be construed as authorizing the
placement of floats or rafts and appurtenant anchors or bottom
moorings on private floats of other than the applicant if objected
to by the owner or owners thereof.

Actions by a harbormaster and/or the division under this sec-
tion shall be subject to applicable laws administered by the di-
vision of motor boats, the division of marine fisheries, the United
States Coast Guard and the United States Corps of Engineers.

Floats or rafts held by anchors or bottom moorings installed
without permission from a harbormaster and/or said division shall
be considered a public nuisance and may be removed by the
harbormaster at the expense of the owner in the event he fails to
remove same after notice in writing from the harbormaster.

For the purpose of this section, temporary shall mean for no
longer than to the end of any given calendar year.

Wipe Out Home Accidents

There's no place like home
—for accidents. The National
Safety Council estimates that
in 1966, home accidents killed
29,500 persons and incapaci-
tated 4,400,000 others for a
day or longer.

Studies indicate that 9 out
of 10 home accidents are pre-
ventable. You can take the
first step in prevention right
now by inspecting your home,
room by room, eliminating
hazards as you go.

Appliance controls and
medicine should be kept well
out of children's reach, and
pot handles should be turned
away from the front edge of
the stove.

To prevent falls, provide
strong handholds and a rub-
ber mat for the tub, and be
sure all throw rugs have a
non-skid backing.

Disconnect all electric ap-
pliances before putting your
hand near "live" elements or
moving parts. And make it a
habit to pick up all objects
which might trip someone,
and to wipe up all spilled liq-
uids promptly.

Also make it a habit to keep
first-aid supplies on hand.

If a burn, cut, or abrasion
breaks the skin, cleanse the

injured area thoroughly. An
antibacterial ointment to cover
the wound is often re-
quired. One such—Neo-Poly-
cin antibiotic ointment—has
a special, nongreasy base and
combines three of the most
effective antibiotics. It is
stable, can mix with oils and
skin tissue without losing
effectiveness; will not stain
clothing, and is easily re-
moved by washing.

If bleeding cannot be con-
trolled, or if a burn covers an
extensive part of the body
surface, call a physician at
once.

Council, 425 North Michigan
Avenue, Chicago, Ill. 60611.

Senior ski club members who are undecided about the January 12-14 ski trip are reminded that they should confirm their reservations immediately. Prospective members, boys and girls age 14 and above, are invited to inquire about this trip to Mt. Lebanon, New York, on the Massachusetts border. There will be at least six hours of skiing, and four of instruction each day.

New Bedford skiers will leave the YWCA at 3:45 P.M. and then stop at Worcester YWCA for more skiers.

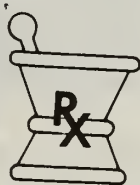

After skiing on Saturday, there will be swimming, and in addition ice skating, ski-mobiling and roller skating are planned in the program.

SAFETY SENSE ... by THOMPSON

1. SLOW DOWN ON ICY ROADS.

EVEN AT ONLY 20 MPH, YOUR CAR NEEDS ABOUT NINE TIMES AS FAR TO STOP ON ICE AS ON DRY PAVEMENT!

2. TO GET MORE TRACTION ON SNOW AND ICE, HAVE GOOD TIRES-- REGULAR OR SNOW TIRES-- WITH GOOD TREADS, AND USE TIRE CHAINS FOR SEVERE CONDITIONS. TESTS SHOW THAT REINFORCED TIRE CHAINS GIVE 4-7 TIMES AS MUCH PULLING POWER ON SNOW AND ICE AS REGULAR TIRES WITHOUT CHAINS.

3. IF YOU DO SKID ON ICE OR SNOW, DON'T JAM ON YOUR BRAKES-- THAT ONLY MAKES MATTERS WORSE. INSTEAD, TURN THE STEERING WHEEL IN THE DIRECTION THAT THE REAR END OF THE CAR IS SLIDING. DON'T OVERSTEER: THE INSTANT YOU FEEL THE CAR COMING OUT OF THE SKID, STRAIGHTEN THE WHEELS!

Did Stalin Betray Us?

The January edition of the Legion, the publication of the American Legion, contains an article by Tony Lazzarino which should be examined by every thinking person. The article is based on a manuscript, "The Final Guns". In it Mr. Lazzarino has traced known fact and interviewed former high ranking German officials to put together the pattern of a cold blooded betrayal of England and the United States by Russia while they were in alliance during World War II.

radioed the minute details of the German army's plans to Roessler and every day he passed them on to a Communist spy web in Switzerland and they in turn radioed them on to Moscow.

According to the author, Lazzarino, Stalin was in possession of the German defenses along the coast of France at the time of the invasion but withheld the vital information from Eisenhower and let the invasion force take its chances blindly at Omaha Beach. No hint was ever given to the United States and Britain that complete German plans were known by the Russians. The author goes on to tell of events leading up to the Battle of the Bulge. The Morgenthau plan came out of the Treasury Department, strangely, says the author. The plan was to dismember Germany, make off with her industry, flood her mines and carve the country up into several farming nations under predominately Soviet occupation. It was presented to Churchill and Roosevelt by Harry Dexter White and both leaders approved it. This plan stiffened the German resolve so that even Hitler's enemy rallied to his side and it led eventually to the attack of the Battle of the Bulge. This Bulge battle permanently changed our original plans for the invasion of Germany, cost us 80,000 casualties and for weeks the whole invasion foothold hung in the balance.

Lazzarino's case is that Stalin knew of the impending Battle of the Bulge, held his army in check to allow the Germans to withdraw forces to mass for the attack. Then, when our army was reeling back under the 60-mile penetration, Stalin launched his army on a race into Germany. While the Russian army swept into Germany and our army was stalled by the Bulge Battle, Stalin called for the meeting at Yalta.

There he set before Churchill and Roosevelt a Soviet plan for the dismemberment of Germany that was a carbon copy of the Morgenthau plan. The disastrous Yalta agreement was the result.

OIL BURNERS ADJUSTED

Comprehensive burner service contract covers annual check-up and adjustment plus other cost-saving services

OUR COMPREHENSIVE BURNER SERVICE CONTRACT helps guard you against heating worries. And it can lower heating costs these three important ways:

1. By making sure your burner is cleaned and adjusted for peak efficiency—to help give you maximum heat from every gallon of fuel.

2. By catching little troubles before they can become big ones.

A small adjustment or repair in your heating system now may save you many dollars later on.

3. By insuring you against unexpected repair bills. This makes sure you always get heat.

For complete details about our burner service contracts—and about our many other services—call us today at the number below.

step by step analysis of the events in this article. Those who now believe that the Soviets have entered a new phase of good fellowship might well think again. The events that have led France to turn away from the United States and toward the Soviets may very well be a continuation of the manipulation of the excellent Soviet espionage using a senile DeGaulle in the way Roosevelt and Churchill were used. Did Stalin betray us? The answer seems to be yes. Have Russians changed their objectives a single inch? What do you think? "Did Stalin Betray Us?" is an interesting article.
